and operated to publish or broadcast news to the public. The term "news" means information that is about current events or that would be of current interest to the public. Examples of news media entities include television or radio stations broadcasting to the public at large and publishers of periodicals (but only in those instances when they can qualify as disseminators of "news") who make their products available for purchase or subscription by the general public. These examples are not intended to be all-inclusive. Moreover, as traditional methods of news delivery evolve (e.g., electronic dissemination of newspapers through telecommunications services), such alternative media would be included in this category. In the case of "freelance" journalists, they will be regarded as working for a news organization if they can demonstrate a solid basis for expecting publication through that organization, even though not actually employed by it.

(k) Requester category means one of the three categories that agencies place requesters in for the purpose of determining whether a requester will be charged fees for search, review and duplication, including commercial requesters; non-commercial scientific or educational institutions or news media requesters, and all other requesters.

(1) Review means the process of examining a document located in response to a request to determine whether any portion of such document is exempt from disclosure. It also includes processing any such document for disclosure. Review does not include time spent resolving general legal or policy issues regarding the application of exemptions.

(m) Search means the process of looking for and retrieving records that are responsive to a request for records. It includes page-by-page or line-by-line identification of material within documents and also includes reasonable efforts to locate and retrieve information from records maintained in electronic form or format. Searches may be conducted manually or by automated means and will be conducted in the most efficient and least expensive manner. If the Agency cannot identify the requested records after a 2 hour search,

it can determine that the records were not adequately described and ask the requester to provide a more specific request.

(n) Submitter means any person or entity providing potentially confidential commercial information to an agency, which information may be subject to a FOIA request. The term submitter includes, but is not limited to, individuals, corporations, state governments, and foreign governments.

§ 303.3 Policy.

The Peace Corps will make its records concerning its operations, activities, and business available to the public consistent with the requirements of the FOIA. As a matter of policy, the Peace Corps makes discretionary disclosures of records or information that may be exempt from disclosure under the FOIA whenever disclosure would not foreseeably harm an interest protected by a FOIA exemption, but this policy does not create any right enforceable in court.

In such cases, the record shall have attached to it an explanation of the deletion. The extent of the deletion shall be indicated, unless doing so would harm an interest protected by the exemption under which the deletion is made. It technically feasible, the extent of the deletion shall be indicated at the place in the record where the deletion was made.
- (d) Electronic reading room. Records required by the FOIA to be maintained and made available in the public reading room created by the Peace Corps on or after November 1, 1996, are made

§ 303.6 Procedures for use of public reading room.

Any member of the public may inspect or copy records described in §303.5(b) in the public reading room during regular business hours. Because it will sometimes be impossible to produce records or copies of records on short notice, a person who wishes to inspect or copy records shall arrange a time in advance, by telephone or letter request made to the Peace Corps FOIA Officer. Persons submitting a request by telephone for a record in the public reading room will be notified whether a written request would be advisable to aid in the identification and expeditious processing of the records sought. Written requests should identify the records sought in the manner described in §303.8(b) and should request a specific date for inspecting the records. The requester will be advised as promptly as possible if, for any reason, it may not be possible to make the records sought available on the date requested.
